ALLOWANCE

This action is in response to applicant's amendment and arguments of 11/15/2005, which have been entered into the electronic file of record.

Allowable Subject Matter

Claims 10, 11 and 21-28 are allowed.

The following is an examiner's statement of reasons for allowance: The applicant has amended the claims in a way that overcomes the rejection that was made in the previous action. Although the applicant's has changed only one word, the meaning of the claims is now clearly different from the prior art. The claim language of each independent claim now recites, "a plurality of data couplers connected between the data writer and the USB hub." This can only mean that between that there are multiple couplers between the same data writer and the USB hub, which is not taught or suggested in the prior art of record.

In summary, the prior art fails to teach or fairly suggest a desktop card printer having an external communications link enabling communications with an external device, a controller in communication with the communications link, at least one data writer, and a plurality of data couplers between the writer and another device.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
